

Dear Klein ISD Students, Educators, and Families,

In our awesome district, we share a vision that every student enters with a promise and exits with a purpose. By ensuring that every student has a clear pathway to success, we are able to personalize learning for students and ensure that all of our graduates have a bright future ahead of them.

Prior to graduation, we promise students the opportunity to explore and experience various pathways that include not only successful mastery of a guaranteed and viable curriculum but also coursework and experiences that appeal to students' unique talents, interests, and abilities. It takes students, educators and families working together to navigate successfully all of the many opportunities available. This website is a repository of resources to support informed decision-making about the many pathways available in Klein ISD. Students, we hope you'll definitely check out the student voice section of each pathway. Who better to tell you what a course or pathway is really like than others students just like you?

We delight in seeing our shared vision become a reality for students in Klein ISD. As you explore the resources available here, please do not hesitate to let us know how we can best support you on this journey from promise to purpose.

Best,

Dr. Jenny McGown
Superintendent,
Klein ISD
